

Greetings T&T® directors, leaders and parents,

We hope you'll find the Mission: Grace in Action® special needs labels helpful in working with your T&T clubbers. If the shortened verses are still too difficult for your clubber, you may shorten them to fit your clubber's needs.

Understanding is the most important element of Scripture memorization. Don't forget, sometimes our special needs kids need more than the usual number of helps to pass a section.

Print a copy of the verses on labels that are compatible with Avery label 5960. Then place the labels on the corresponding page in the *Mission: Grace in Action* handbook. The page numbers are in parentheses on each label.

Did you know that Awana has a resource for special needs kids? We would encourage you to purchase *Awana for Me: A Guide to Working with Children with Special Needs* (item 74368) when you place your next order.

Thank you and have a great year in Awana®!
